

Akashic Record (AR) & Spiritual Reading with The Council and Michael

An Akashic Record (AR) and Spiritual Reading will provide access to “all” the prior events of a soul. The format is that the client asks questions about him/herself and Michael responds with an answer from the soul’s historical records (commonly referred to as the Akashic Records). The Council (Christed Beings of Light) oversee the sessions and respond to questions not directed to the client’s AR. Departed loved ones and/or any non-incarnate soul, will also participate if requested by the client. In summary, Michael operates as a medium between the client and the spiritual realm.

The Council is known by many names, including The Christ, Holy Child, the Christ Oversoul, the Holy Spirit, the Lineage and the Family of Light Divine. Every soul is a member of The Council, even if you are temporarily not conscious of it...because all souls are part of The Christ...*we are individuated (from the Big Bang of Christ Consciousness) yet One...as a wave is to the ocean or a light beam to the sun.* The participating members of The Council are souls who are conscious of our divinity. Jeshua ben Joseph (Jesus) is often considered the primary spokesperson for The Council/Christ Oversoul. The Council typically communicates through a single, unified voice. Jeshua is a member of The Council.

The Christ is: awareness or consciousness, with free-will...which ***includes our innate ability to be conscious of our Creator—The Source of All.*** God—Pure Love—Pure Spirit has only one desire: to extend Itself = extend Pure Love. The Christ, ***the spark of divinity in all souls***, is the medium or conduit through which God extends Itself throughout Creation. As mind boggling as this will initially sound, and depending on the subject matter, The Source of All will also participate in these spiritual readings.

The sole purpose of each soul on Earth is to awaken, whereby each remembers their relationship with the Source of All = Christ Consciousness = a conscious awareness of God, with the ability to function as a channel or conduit for the extension of God, and God is Pure Love. Christ

Consciousness, or possibly more accurately described as God Consciousness, allows each soul (Christed Being) to communicate with the Source of All and experience the bliss of receiving, *feeling* and functioning as a channel or conduit for God, and God is Pure Love.

To make a very long story short, that's why we volunteered to come to Earth. To experience, out of curiosity, the darkness of the 3rd dimension of physicality (ego-based emotions, non-love and fearful consciousness) and then "awaken to or remember Reality", thereby extending our essence—Pure Love, throughout the Earth dimension = the creation of Heaven on Earth. A bit mind-boggling is it not?

There are endless perceptions and beliefs about God and life on Earth that are upside down. For example, we are not here to improve and evolve in hopes of somehow qualifying for the bliss of the spiritual realm, inclusive of a relationship with our Creator. As Christed Beings of Light and Love, we *originate in the bliss of the spiritual realms*. We already have a relationship with our Creator—a Beingness of Pure Love. Our physical bodies are just temporary costumes, cloaked in ego energy = an illusion of aloneness, separation from God and fearful consciousness. Once we awaken (dissolve the egoic illusion) we will remember our essence—Christ Consciousness, only we will still be in physical form...ushering in an era of mass Christ Consciousness on Earth. This has never been done before in such a dense and dark portion of the 3rd dimension.

With that as a brief introduction of The Council and our purpose on Earth, the sessions can be done remotely via the telephone, Zoom or Skype. It is recommended that the client record the session using their smartphone, so there will be no need to take notes or remember every aspect of the session. Advance preparation by the client, in the form of a list of questions, is recommended to maximize the benefits of each session.

Questions about anything in your past are appropriate, inclusive of any aspect of your pre-incarnation planning process. There are no accidents. Most of your major challenges represent either unfinished business/lessons

from a prior life (aka karma) or new experiences (learning opportunities) that you planned during your pre-incarnation planning process.

If you want specific answers, specific questions should be asked.

People searching for assistance with a problem, crisis, etc. obtain the best results if each question consists of three components:

- Brief description of a specific problem or challenge.
- Describe how and why the circumstances are affecting you.
- The final step is to pose the question that you want answered. One brief example follows.
 - After a description of a relationship problem and how it is affecting you; was this triggered by prior life events? If so, what was the major event and/or incarnation? And, what am I trying to learn from or attempting to resolve in the current relationship?

There are no restrictions...nothing is hidden...so any question can be asked. However, it is suggested to refrain from “yes or no” and very broad “what should I do” type questions. If these types of questions are asked, it is not unusual for The Council to initially respond with a clarifying question back to you.

It is suggested to pose questions that provide new information, which will assist you in making a more informed decision about any issue. Rather than telling you what to do, The Council will generally convey alternatives, past-history and new information.

The *sovereignty of the soul is sacred* and is an underlying theme of all responses. With that said, how questions are framed is important. For example: *consistent with love and greatest good for all*, how should I proceed in this situation? This type of framing or qualification opens the door for responses of a more advisory nature, consistent with our essence and purpose: the extension of Love.

Solutions to challenges often entail a new approach and perspective. In this regard, it is not unusual for the sessions to provide answers and information that were either not contemplated and/or not to the client's liking. Thus, unless you are "open" to shifting your perspective, the information provided may be of minimal assistance. However, with a better understanding of yourself and life in general, a more mature and loving attitude towards each situation may result.

Please contact Michael via email (Michael@metatones.com) or at 970-363-7726 if you have any questions.
